Networking Night for Economics Majors

Marko Markov from PricewaterhouseCoopers speaking with several Economics majors

On February 5th, the Economics Department and S.U. Career Services held the first Networking Night for Economics Majors. At the beginning of the event, representatives from several employers spoke of employment opportunities for Economics majors at their companies. Students then networked with the employers to

develop professional relationships and connections.

The list of employers in attendance were Burlington Coat Factory, C & S Wholesale Grocers, City Year, First Investors, Locations Etc., Macy's/Bloomingdale's, Primerica Financial Services, PricewaterhouseCoopers, and University Directories. Due to its success, the Economics Department plans to hold more networking events in the future.

A special thanks to Mrs. Eastham from the Economics Department for organizing the event!

Increase your marketability with the Global Enterprise Technology (GET) minor

The GET minor is an excellent choice for economics majors—learning how large-scale information systems work is a major advantage as these are the systems driving 21st century industries and organizations. The U.S. government runs on enterprise systems, as do a range of financial, health and social institutions.

With only six credits of core requirements, you can customize the minor with GET electives centered on your interests and career goals. A complete list of courses available can be found at <http://getsu.syr.edu/>.

In addition, the GET minor puts you on the fast track for well-paying internships, including the Immersion Experience, an extended internship with integrated coursework and optional overseas 2-week, 3-credit intensives in Europe and Asia.

To see how GET fits in with your program of study, talk to your advisor. For specific GET information and to apply for the minor, meet with Elaine Morgan or Tess Schaufler at the iSchool's Student Services Center, 114 Hinds Hall.

What's Going On...

Every year, the Economics Department offers many ways for students to meet other Economics majors, Econ faculty, and even alums. Here are a few upcoming events that you may want to put on your calendar.

- **Economics Distinction Program - Student Presentations:** The students in the Economics Distinction Program will present their work on May 1st from 1:00pm to 3:00pm in 112 Eggers Hall. All are welcome to attend. Light refreshments will be served. **Joseph Andrade** will present his work on the assimilation of Hurricane Katrina evacuees into the Houston labor market. **Alexander Curthoys** will present his work on the effect of macroeconomic conditions on the incidence of crime. **Brendon Dunham** will present his work on whether increasing the minimum wage increases the rate of smoking, particularly among teens and young adults. **Samuel Giber** will present his work on the effect of macroeconomic conditions on the performance of microfinance institutions. **Benjamin Hatch** will present his work examining whether the proximity of a sex offender affects housing values. And **Joseph Smeeding** will present his work on the effect of the Earned Income Tax Credit on the labor supply of single mothers.
- **Omicron Delta Epsilon Dinner:** If you have been invited to join ODE, the application and the application fee are due in the Economics Office by Monday, April 1. If you are joining ODE or were inducted last year, please join us for a dinner on **Tuesday, April 30th** honoring members of this international honor society. Please remember to RSVP for the dinner to Maureen Eastham mmeastha@maxwell.syr.edu. See inside for more information on this year's guest speaker.
- **Economics Club:** See Page 7 for details about upcoming Club events.

Applications now being accepted for the:

JOANN HEFFERNAN HEISEN AWARD

For Outstanding Undergraduate Achievement in Economics

Application Deadline: Monday, April 1, 2013

Are you aiming for a BS, as opposed to a BA, in Economics?

Then make plans to fit the following courses into your plan of study for the BS:

ECN 311 (instead of 301), 505, 521, 522; MAT 295, 296.

Alumni News

Long Liu has just received his promotion and tenure as Associate Professor of Economics at the University of Texas at San Antonio. Long received his Ph.D. in Economics from Syracuse University in 2008 under the supervision of Badi H. Baltagi and Chihwa Kao. His research interests focus on panel data problems and spatial regressions. Long Liu has published papers in *Econometrics Journal*, *Economics Letters*, *Statistics and Probability Letters*, *Advances in Econometrics*, *Spatial Economics Analysis*, *Journal of Forecasting*, *International Journal of Forecasting*, *Statistical Papers* and *Applied Economics*.

Economics Alumnus will Speak at ODE Induction Dinner on April 30th

Galen Antle graduated from Syracuse University in 1998 with a B.A. in Economics. Galen is a former Officer in the United States Army, and is now a Senior Manager at Ernst & Young from the Capital Markets practice in New York. Over the last 15 years, Galen has worked extensively with many of the top global financial institutions. He assumes leadership responsibility for client engagements that involve business transformation, as well as enterprise technology architecture and operational improvement. His functional experience spans across the full trade lifecycle and associated support functions. His asset class experience includes OTC derivatives, listed derivatives, hedge funds, cash equities, cash fixed income, and money market funds.

OMICRON DELTA EPSILON

International Economics Honor Society

Outstanding students in economics are invited to become lifetime members in the Omicron Delta Epsilon international honor society (ODE). The society exists to form a community of economists across countries. Membership is based on scholarly achievement and is recognized worldwide. Criteria for selection for the ODE Honor Society are:

- Declared Economics major;
- Junior or senior standing;
- Overall GPA of 3.00 or higher;
- Successful completion of ECN 301 (or 311) and 302;
- Successful completion of at least two upper division ECN courses (300 level or above), excluding ECN 301, 302, 311, 365, and 470;
- Economics GPA of 3.2 or higher (calculated from course work taken to date in intermediate theory courses and upper-division economics electives).

If you qualify and you have not received an invitation to join this society from us, please contact Maureen Eastham in the department office 110 Eggers or at mmeastha@maxwell.syr.edu or 443-3843.

Syracuse University Economics Club Spring Semester News

Please join the Economics Club at 1:00PM on Friday, April 12th for the end of the year BBQ and Elections. This event provides a great chance to meet other economics students and faculty members, as well as to learn more about opportunities available to economics students. If you are interested in running for an officer position please contact Professor Singleton or Professor Weinstein.

This semester the economics club has hosted a combination of weekly meetings and presentations. In February, Allison Marier, Ph.D. Candidate in Economics at Syracuse University, presented her research on the "The Effect of Mandated Health Insurance on the Price of Care: Evidence from the Massachusetts Health Reform". In March, Professor Wasylenko discussed the fiscal health of the United State and the cost of Medicare. Both presentations provided an excellent forum for discussing contemporary research and economic policy. During weekly meetings students have led discussions on Healthcare for Veterans, Financial Trading, and Micro-finance.

ECN 302, Intermediate Macroeconomics

National product and income concepts, measurements and relationships; interrelationships of the major segments of the national economy; forces affecting the general level of economic activity. Prereq: ECN 102 or 203; quantitative skills requirement of the liberal arts core recommended.

ECN 302, Sec. 001, Ref. No. 11031, Prof. Ondrich, TTH, 9:30-10:50

ECN 302, Sec. 003, Ref. No. 12251, Prof. Paz, TTH, 12:30-1:50

ECN 304, Economics of Social Issues

Please note: this was previously an ECN 310 special topics numbered class. Credit only given one time for either ECN 310 Social Issues or ECN 304 Social Issues.

Application of the economic tool kit developed in introductory economics classes to current issues facing society. Topics include but are not limited to: market failure (the environment, drugs); price control issues (farm policy, rent control, minimum wage); health issues (health care, medicare, medicaid, prescription drugs); and other social issues (poverty, discrimination, social security). Prereq: ECN 203.

ECN 304, Sec. 001, Ref. No. 16425, Prof. Liu, MW, 12:45-2:05

ECN 310, Special Topics in Economics

ECN 310, Sec. 002, Globalization, Ref. No. 16075, Prof. Mitra, MW 2:15-3:35

This course will be a non-technical study of the economic effects of the various forms of globalization. We will start with the trend towards increased globalization, especially greater openness in international trade. We will then cover in a non-technical way the determinants of trade patterns, the gains from trade and the economic costs of protectionism. We will next study the impact of trade on jobs and wages. Next we will study the benefits of foreign direct investment and look at the impact of offshoring (popularly called outsourcing) on overall domestic welfare, productivity and the welfare of workers. We will study how trade policy is made and the institutions that play a vital role in the making of trade policy. In this context, we will also look at trade agreements. The role of trade in development will be discussed in detail. We will also study some aspects of the economics of immigration. Finally, we will look at the effects of globalization on poverty, labor standards, environment and culture. Prereq: ECN 203.

ECN 311, Intermediate Mathematical Microeconomics

This course covers the same materials as covered in ECN 301, but the presentation is more mathematical than ECN 301. Both ECN 301 and 311 cannot be counted towards the major/minor. Credit cannot be given for ECN 301 *after* completing ECN 311. Prereq: (ECN 101 and 102) or ECN203; and MAT 284 or 285 or 295; or permission of instructor.

ECN 311, Sec. 001, Ref. No. 11035, Prof. Liu, MW, 2:15-3:35

ECN 365, The World Economy

Non-technical introduction to analysis of international economic issues. Protectionism, the multinational firm, the debt crisis, international macroeconomic policy coordination, and European integration. This course may not be used to fulfill the upper division elective requirement for the economics major. Prereq: (ECN 101 and 102) or 203.

ECN 365, Sec. 001, Ref. No. 16848, Prof. Buzard, MW, 8:00-9:20

ECN 400, Fast Cities

ECN 400, Sec. 001, Ref. No. 30885, Prof. Schramm, MW, 3:45-5:05

ECN 410, Special Topics in Economics

ECN 410, Sec. 001, Ref. No. 29840, Economic Development, Prof. Mutreja, TTH, 11:00-12:20

This course is an introduction to economic development with an emphasis on economic growth. The first part of the course addresses the meaning of economic development and its measurement across countries. The second part addresses the theory of economic growth. In this part, the focus is on empirical observations on differences between developed and developing countries, in particular the cross-country income differences. These empirical facts are studied within the framework of the theory of economic growth. Prereq: ECN 301 and ECN 302. Knowledge of algebra and elementary calculus is extremely helpful throughout the course.

ECN 410, Sec. 002, Ref. No. 29390, Quantitative Analysis of Socio-Economic Data, Prof. Patacchini, TTH, 2:00-3:20

One of the best ways to learn economics is conducting empirical research. This course is an introduction to the statistical analysis of socio-economic data. It is centered on regression analysis, which studies socio-economic outcomes as functions of one or more predictor variables. The benefits and limitations of this technique in socio-economic research are discussed using a variety of empirical examples. Basic knowledge of statistics would be extremely helpful.

ECN 410, Sec. 003, Ref. No. 14335, Introduction to Statistics & Econometrics, Prof. Lee, MWF, 10:35-11:30

Elementary theory of probability and statistical inference for economics. Estimation of parameters in regression models for economic data. This course is not a substitute for ECN 521 and 522. Quantitative skill requirements of the liberal arts core and ECN 203 are required.

ECN 465, International Trade Theory & Policy

Economic causes and consequences of international trade. Models of trade, gains from trade, tariffs and other controls on trade, and international institutions guiding the trading systems.

Prereq: ECN 301 or 311.

ECN 465, Sec. 001, Ref. No. 16076, Prof. Mutreja, TTH, 2:00-3:20

Ecn 487, Economic Growth

Please note: this was previously an ECN 410 special topics numbered class. Credit only given one time for either ECN 410 Economic Growth or ECN 487 Economic Growth.

This course is an introduction to the study of economic growth. It is devoted to the study of models of economic growth and their applications. The focus is on empirical observations across countries, in particular the cross-country income differences. The empirical facts are studied within the framework of the theory of economic growth. Prereq: ECN 301 and ECN 302.

Knowledge of algebra and elementary calculus is extremely helpful throughout the course.

ECN 487, Sec. 001, Ref. No. 29853, Prof. Mutreja, TTH, 12:30-1:50

ECN 495, Economics Honors Thesis

This seminar is open only to Economics Distinction students. In the fall semester, its goal is to orient students to professional economics research and to guide them as they define and begin their thesis projects. In the spring semester, thesis writers present their ongoing research, constructively engage the work of other honors students, and work in close cooperation with a faculty mentor to complete their research. Prereq: Permission of instructor.

ECN 495, Sec. 001, Ref. No. 14090, Prof. Singleton, TTH, 5:00-6:20

SENIOR CHECK LIST

Seniors in The College of Arts and Sciences.....

(other seniors--please check with your respective college recorders)

- Senior Check.....** Check with your college Recorder to see that your major(s) or minor(s) are officially declared and correctly noted on your record. If you are no longer pursuing a listed major or minor, please make sure that it is deleted from your record.
- Major Requirements.....** Prior to making your Senior Check appointment, we strongly encourage you to check with your advisor(s) in your major(s) to insure that you are on track for graduation within all your major(s). During your Senior Check, the Student Records Office will determine remaining core requirements, overall credits and general University requirements. *The Records office will not confirm the completion of your major until the degree certification process which occurs at the end of your college career.*
- Program(s) of Study.....** Check with your college Recorder/Academic Advisor to see that your major(s) and or minor(s) requirements have been fulfilled. If you are no longer pursuing a listed major or minor, please make sure that it is deleted from your record.
- B.S. Petitions.....** The **Arts & Sciences Student Records Office**, 329 Hall of Languages, has a pre-printed form for the B.S. degree. When you do your Senior Check, your recorder will give you the form to bring to your department. Economic students should bring it to the Assistant to the Chair for completion. The student then returns the completed form to the A&S Student Records Office.
- Transfer Credits.....** Check with your College Recorder/Academic Advisor to make sure that the official transcripts of all credit you intend to have included toward your degree have been received and evaluated.

Incompletes

All coursework must be completed and handed in prior to graduation dates.

May grads – work due by May 10th

August grads – work due by August 8th

December grads – work due by December 12th

Work completed after the above dates automatically changes your graduation date.

Make sure your professors agree to the latest date of completion.

Diplomas.....

Diplomas are mailed to the address entered on the Diploma Request link. When an undergraduate student attains Junior standing (54 credits or more), the File Diploma Request link becomes available under Student Services in MySlice. Students must use this link to specify the term in which they intend to graduate and to provide information for their diploma. If your information is not complete, you will not receive commencement mailings with event calendars and dinner dance reservation forms, most importantly, you will not receive your diploma! Students must also contact their home school or college to review all graduation requirements.

Local Address

Senior mailings are sent to the local address as it appears on MySlice, the Syracuse University information system. Make sure that it is correct and current.

Graduating??

Please feel free to stop by the Economics Department where Sue Lewis will be happy to verify the completion of your Economics major/minor requirements.
