SU taught me that we don't always end up where we expected, and that's okay! If we connect to the soil and to each other, we are sure to find family and adventure along the way.

GEOGRAPHY FACULTY AWARD FOR EXCELLENCE WINNER

Shirley Anne Dougherty

The world is beautiful, tragic,
and crazy—stop making plans,
you have a wonderful life
worth living!

Shirley Anne Dougherty

The past four years at Syracuse have been so much fun, and I am so grateful to the geography department for their teachings and advising. I am sad my time at Syracuse has come to an end, however I am looking forward to the future and applying what I have learned!

Jackson Paul Duffy

I'm off to chase a million
dreams!

Taymour H. Hert

I have had an amazing four years at Syracuse University. Being a dual major in International Relations and Geography has allowed me to learn so much about the world and has helped me grow as a person. I am excited to see what the future holds.

Jake I. Jauregui

I've learned that it's
more important to go
and see the world than
it is to read about it.
